

Cooperation Event

On the 4th of march 2010 and in combination with the international brokerage event “Future Match” at the CeBIT 2010, *Leibniz Universitaet Hannover* will organize a cooperation event especially for Turkish and German companies. Therefore a guided tour to the Lower Saxony Booth in hall 9 next to the Future Match stand (booth 22) is planned in the afternoon. More than 20 companies, universities and governmental organisations will be presenting innovative technologies, products and services from Lower Saxony at the joint booth. The highlights are:

- energy efficient operational management systems
- ambient assisted living systems
- cartography systems
- bar systems
- digital library systems
- platform systems for searching audiovisual resources
- enterprise and product management systems
- data analysis systems

The catalogue of exhibitors will be available soon.

The aim of this “Cooperation event” is to create technical co-operations and sustainable business opportunities for both sides. However for successful networking good coordination and planning has to be arranged beforehand. Thus participants are welcome to e-mail their own profiles and more importantly information about the themes of interest and/or the companies/scientific institutions they would like to meet.

The cooperation event will be held in English and will be carried out together with the respective partner. All participants will receive a portfolio of information about the exhibitors and their offers in advance. Furthermore, the participants will have the possibility to exchange expressions of interest and arrange further meetings.

Participation is free of charge.
